Team G3 Promotion

Congratulations to Teva Majchrzak for recently being promoted to Chief Operating Officer for G3 Construction Group! During his impressive 9+ years with the company, Teva oversaw many successful G3 projects including several facilities for Rosalind Franklin University. Teva's excellent team leadership, dedication, and construction management skills make him perfect for this new role. Good on ya, mate!

Recently Completed Projects

Rosalind Franklin University

Innovation and Research Park, North Chicago, IL

G3 recently completely the ground up construction of this 100,000 square foot medical research building with mixed use concept space such as labs, offices, meeting spaces, and cafe areas. This state of the art facility is the only research park in Lake County. This project was completed on time and within the \$50+ million budget.

COVID-19 Response

G3's Environmental Health and Safety practices safely support our ongoing projects. Our on-site protocol includes:

- daily temperature checks
- designated entrance/exit points
- mandatory face coverings and social distancing
- frequent use of hand sanitizer
- poly erected containment utilized to isolate work areas from the public
- HEPA filtered air scrubbers used to continually clean the air of contaminants including airborne viruses and improve the indoor air quality
